

NordicWay

Cellular C-ITS Corridor

Final Event Concluding Remarks

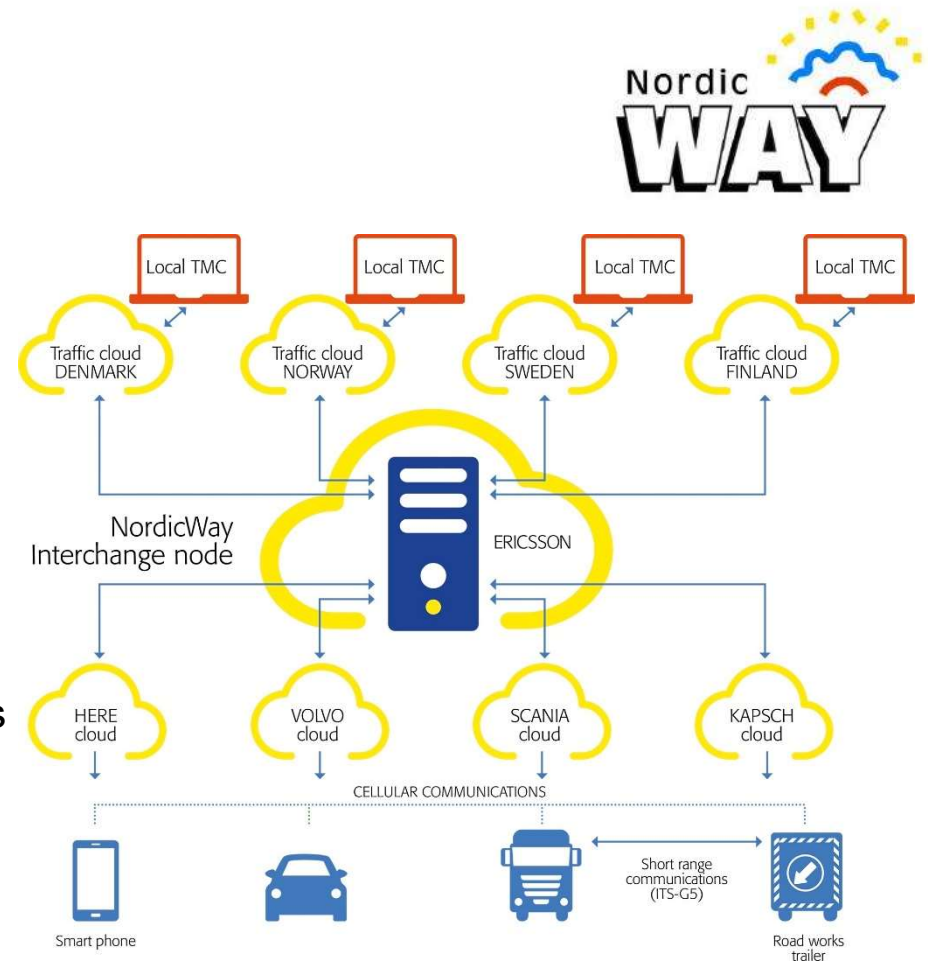

Risto Kulmala
 Project Coordinator, Finnish Transport Agency

 Co-financed by the European Union
 Connecting Europe Facility

What have we achieved?

- An interoperable cellular cloud-based C-ITS solution, scalable to Europe and beyond
 - full road network C-ITS coverage
 - innovative services for the mobility of people & goods; incl. automated driving
 - new possibilities of organising traffic to optimise the use of existing infrastructure
- An eco-system supporting the OEMs' and service providers' customer relationships as well as existing privacy and security solutions
- Sufficiently low latency for most Day1 C-ITS
- Services well accepted by users
- High benefit/cost
