

# Guidelines for filling out the form to acquire the Danish RDS-TMC Location Code Table

To acquire and use the Danish RDS-TMC Location Code Table, version 12.0, please fill out the form on [Vejdirektoratet.dk](http://vejdirektoratet.dk) according to the guidelines below.

The changes from version 11.1 to 12.0 are summarised here:

[http://vejdirektoratet.dk/EN/roadsector/tmc/Documents/DK\\_LCT\\_changes.pdf](http://vejdirektoratet.dk/EN/roadsector/tmc/Documents/DK_LCT_changes.pdf)

You will have to read and accept the conditions for the use of the Danish Location Code Table in the “Contract concerning the Danish RDS-TMC Location Code Table”:

[http://vejdirektoratet.dk/EN/roadsector/tmc/Documents/Contract\\_DK\\_Location\\_code\\_table.pdf](http://vejdirektoratet.dk/EN/roadsector/tmc/Documents/Contract_DK_Location_code_table.pdf)

## Filling out the form

Fields marked \* are mandatory. For a private person, the Organisation name and the name of the Contact person may be the same. If you want to enter a title for the contact person, please write it in the name field after the name.

A description of the recipient’s products and services using the Danish location code table must be filled out. The descriptions must be sufficiently detailed to describe the types of products, applications and/or services in question, but still at a rather general level. If the location table is going to be used in more than five different products, the four major products are described, and the fifth set of entries is used to summarise the further uses of the table.

A short explanation of the expected content in the description of the recipient’s products and services is as follows:

Product:	The product, the location code table is used in, e.g. a navigation device or a map.
Use of location Table:	The way the location code table is used, e.g. integrated into the product.
Use of product:	The use of the product, e.g. used in cars from manufacturer xxx.
Remarks:	Relevant remarks.

## Do not print

If the form is printed, the printed page may not look as the page on the screen, and the information entered in the form may be lost. The information entered will appear in the e-mail, you will receive together with the location code table after submitting the form.

## Delivery of the location code table

After pressing the “Send” button below the form, your information will be submitted to the system, and an e-mail listing the information you have entered will be sent to you. This e-mail will carry three attachments:

- “Contract concerning the Danish RDS-TMC Location Code Table”
- “Changes from version 11.1 to 12.0”
- The location code table itself

## Corrections or questions

When the form has been submitted, the information can no longer be changed. Any corrections or questions regarding the submitted information should be sent to the e-mail address [tmc@vd.dk](mailto:tmc@vd.dk) with the subject “The Danish RDS-TMC Location Code Table”.
